

Esplanade 1000 Matting

Esplanade 1000 Matting

Esplanade 1000 is an aluminium framed mat with a choice of wipers. The wipers provide options in performance, cleanability and design which help specifiers and contractors to provide the best solutions to maintain floor finishes and to further minimise the risk of slips from increased pedestrian traffic in public buildings.

Typical applications: Schools, offices & high street shops

- Available in open or closed construction
- Supplied with edging strips and divider bars (see back page)
- Flammability - BSEN 13501-1 Class Efl
- Slip-resistance (HSL ramp test) - low risk of slip
- Can be manufactured to most shapes on approval of a template
- Warranty - 5 years

Profiles: Dimensions shown are nominal. Illustrations not to size. Products subject to minor design alterations without notice.

12mm closed construction - solution dyed nylon wiper

18mm open construction - pvc scraper wiper

Note - pvc wiper - scraper action only - for exterior use.

Typical Installation: Esplanade 1000 18mm open construction with solution dyed nylon wipers. Recessed in a Matwell.

Esplanade 1060 Wipers

Constructed from 100% solution dyed nylon yarn and incorporates a heavy scraper fibre for optimum dirt removal and moisture retention.

Shadow LRV 5.36

Walnut LRV 2.86

Indigo LRV 4.01

Jet Stream

Esplanade Pvc Scraper Wiper

Pvc Scraper Wiper (Black)

In addition to the choice of carpet wipers there is also a solid black pvc scraper wiper suitable for both internal and external use.

Esplanade 1000 Accessories

Edging Strips

Edging strips are used for on-site trimming and to provide a neat finish at the raw edge of the mat. Edging strips are supplied with each order.

Recessed Frames

A recessed mat is installed into a matwell that has been set into an existing floor finish and fits flush with the surrounding floorcoverings. Matwell frames are used to protect and strengthen the matwell, protect the exposed edge of the floorcovering and provide safe transition to the surrounding area.
