GRANOBLE
category: vinyl composition tile

Elegant solid-colors of GRANOBLE can make sophisticated floor images. With its basic tones, combinations with other tiles are also workable.

Specification	overall thickness	3.0mm		size	450mm×450mm
	others	Pre-Waxed Surface			
JIS Registered No.	No. GB0507188 (JIS A 5705 Vinyl Tile Flooring)				

| Packing	14pcs/box = 2.83m²/box
Net Weight	19.0kg/box
Recommended Adhesive from TOLI	
dried mortar and concrete	Eco Royal Cement, Eco AR600
renovation	Eco AR600
humid mortar and concrete	Epo Gray ST, US Cement, US Cement (less-smelly), US200
Notes on Installation	✦When you install with divider strips on dried mortar and concrete, recommended adhesives are Eco AR600. ✦Before installation, make sure the arrow marks on the back of each tile, which show the direction of the pattern. ✦For one week after installation, direct sunlight, sudden change of temperature due to air conditioning, and water washing should be avoided. ✦The color shading differs on a tile-by-tile basis, which will make the floor look very natural when the tiles are installed.
Recommended Maintenance Wax from TOLI	New FB Wax, U Wax, T Wax (Non-shiny & Antibacterial)
Others	✦The dirt and stains will be more visible on the floor covering with lighter plain colors, compared to dark colors. Also they are more likely to stick with the deep-embossed surface than the flat surface. ✦Please be aware that some rubber casters might cause color-contamination. ✦Please note that the product has the indigenous odor from its materials.

MADE IN JAPAN

Vinyl Soil

"Vinyl Soil" (artificial soil in TOLI's product design concept) is a flexible material to describe natural textures. Just like you freely paint a picture, any color and texture can be portrayed by "Vinyl Soil".
