Please bear in mind that ROYAL STONE (hexagon) may take more time for layout and installation compared to the tiles in square size. Please note that the product has the indigenous odor from its materials. When you install the tiles in hexagon size, you will have a better appearance by finishing the joints with caulking materials. Occasionally a very slight size difference could be seen between different production lots. For designed installation of 4-sides-beveled tiles, or installation of tiles with the shape of hexagon, trapezium and 900mm square, please adjust the size of a tile as needed. Otherwise joints should be finished with caulking compound. Squareness of tiles are fully checked during the production. However, due to the condition of sub-floor and others, joints might not be strictly matched in some cases.

Please note that the product has the indigenous odor from its materials. For the dirt and stains stuck on the surface, apply the neutral detergent and remove them by the brush with thin bristles. Afterwards clean with a vacuum cleaner, a wet rag wrung out tightly, or a mop. Before applying the wax for maintenance, buff the floor surface sufficiently with a blue pad. Please bear in mind that thick coating of wax will lessen non-slippery performance. If the slip-retardant effect to oil should be required, do not apply the wax on the surface. ROYAL STONE NONS is for the place where you walk with your shoes on. Do not walk on it without your shoes on.
